the planets within asks us to return to antiquity with new eyes it centers on one of the most psychological movements of the prescientific age renaissance italy where a group of inner columbuses charted territories that still give us today a much needed sense of who we are and where we have come from and the right routes to take toward fertile and unexplored places chief among these masters of the interior life was marsilio ficino presiding genius of the florentine academy who taught that all things exist in soul and must be lived in its light this study of ficino broadens and deepens our understanding of psyche for ficino was a doctor of soul and his insights teach us the care and nurture of soul moore takes as his guide ficino s own fundamental tool imagination respecting the integrity and autonomy of images the planets within unfolds a poetics of soul in a kind of dialogue between the laconic remarks of ficino and the need to give these remarks a life and context for our day

considered to be the world s foremost post jungian thinker james hillman is known as the founder of archetypal psychology and the author of more than twenty books including the bestselling title the soul s code in the making of a psychologist we follow hillman from his youth in the heyday of atlantic city through post war paris and dublin travels in africa and kashmir and onward to zurich and the jung institute which appointed him its first

director of studies in 1960 this first of a two volume authorized biography is the result of hundreds of hours of interviews with hillman and others over a seven year period discover how hillman s unique psychology was forged through his life experiences and found its basis in the imagination aesthetics a return to the greek pantheon and the importance of soul making and gain a better understanding of the mind of one of the most brilliant psychologists of the twentieth century

in recent years the function of language narrative and text in psychic life has taken on increasing significance in depth psychology the alchemy of discourse examines language in relation to psychic formation beginning with the role played by images and words in the onset of subjectivity through a careful examination of jung s early word association experiments coupled with recent developments in lacanian psychoanalysis dr kugler offers a re conceptualization of the origin and function of the jungian divided subject ego self for those just beginning to explore the role of language in psychic life the alchemy of discourse provides an accessible entry point with its clear explication of key terms together with their historical and conceptual background this book will be a valuable resource for psychoanalysts students and trainees in depth psychology and for writers critical theorists philosophers and historians of ideas

setting jung against a range of postmodern thinkers hauke recontextualises jung s thought as a response to modernity themes include meaning power knowledge and the contribution of architectural criticism to the postmodern debate

situation comedy character and psychoanalysis puts the sitcom character on the analyst s couch and closely examines the characters of basil fawlty lucy ricardo and kim from australia s kath kim in order to reveal the essential elements that must exist in a sitcom before even the first joke is written original in its approach d t klika uncovers major findings about the sitcom as well as human behavior and relationships that we find arresting and even familial by offering a new way of reading the sitcom using psychoanalytic theory this book can be used as a basis for engaging in critical discourses as well as textual analysis of programs psychoanalytic theory enables a reading of character motivations and relationships in turn elucidating the power struggle that exists between characters in this form of comedy situation comedy character and psychoanalysis shines a light on what is at play in the sitcom that makes us laugh and why we love the characters we do only to discover that this form of comedy is more complex than we first thought
